

Pi-Star Mobile Installation

Open SSH or Putty Access in your pi-star dashboard:

http://pi-star.local/admin/expert/ssh_access.php

Once logged in, copy & paste or type and execute the following 4 lines (one by one)

```
rpi-rw
```

```
sudo wget -O /tmp/pi-star.mobile.install.sh http://www.w0otm.com/pistar/pi-star.mobile.install.sh
```

```
sudo chmod 555 /tmp/pi-star.mobile.install.sh
```

```
sudo /tmp/pi-star.mobile.install.sh
```

Once completed, using your mobile device, goto:

<http://pi-star.local/mobile> or <http://<IP ADDRESS>/mobile>

To UPDATE to the latest Pi-Star Mobile version, simply run these commands again
